

DT-200MCP WASTE COMPACTOR & BALER

“Waste management equipment for the demanding maritime and offshore industry that gets the job done efficiently, safely and in an environmentally responsible manner.”

The DT-200MCP waste compactor and baler is manufactured in painted steel and especially suited for use onboard ships and offshore installations. The compactor is delivered with a wheeled C-200 container for easy and effective waste logistics.

The modular design of the DT-200MCP makes it perfectly suited for source segregation according to MARPOL guidelines, simply by adding extra containers for different waste categories.

The DT-200MCP can be used as a free-standing unit or in combination with other DT200series products as the C-200 container is interchangeable between them. Combining a DT200series waste compactor and shredder is the most effective way to ensure extreme volume reduction and significantly reduced waste handling cost.

YACHT

FISHING

ONSHORE

Key Benefits:

- Painted steel design.
- Ideal for indoor installation onboard vessels and retrofit.
- Combined compactor and baler.
- Waste can either be compacted directly in to HD plastic bags or as a strapped waste bale.
- Delitek Products are verified for use in marine and offshore industries by DNV.
- Powerful electro/hydraulic drive for high press-force.
- Easy installation and operation (Plug & Play).
- Alternative power supply: Pneumatic/hydraulic.
- EX/ATEX version with DNV unit certification available.

Technical specifications

Material	Painted steel
Capacity	0,2 m ³
Loading opening (W x H)	550mm x 230mm
Compaction force (Max)	9 tons
Dimensions (W x D x H)	696mm x 714mm x 1913mm
Weight (Incl. container)	225 Kg
Motor voltage	220V / 380~440V / 480V / 690V, 3Ph, 50~60Hz
Alternative power supply	Pneumatic/Hydraulic
Motor power	<1,8 kW
Noise level	<65dB Max
